Utah Community Action

Dear Conference Attendees:

Welcome to the CAP Utah's 2nd Virtual Conference. We hope this conference provides you with new perspectives and tools to ***Turn Challenges into Opportunities.***

It is hard to believe that it has been a year since the last virtual conference. A year ago agencies were overwhelmed with calls as households navigated the social, economic, and health impacts of COVID 19. It was also a time when many in the nation became more aware of structural racism and acts of violence against persons of color and indigenous populations. Many of us were trying to figure out how to deal with changes to emergency shelters, a tax season that extended to July, and a delayed Census count.

At the same time, it was inspiring to see Community Action Agencies (CAAs) and other valued partners be innovative and collaborative. New partnerships, such as the Utah Homeless Network, emerged. Processes were continually refined and streamlined as CAAs helped to distribute over \$20 million dollars of rental assistance. Food, tax preparation, and Head Start sites transformed to keep customers safe.

I hope as things go "back to normal", agencies will continue to be innovative. I hope agencies will continue to listen deeply to the experiences of all members of their communities and evaluate marginalized voices. Whether we are from CAAs or not, now is a time to increase our commitment to uphold the Promise of Community Action, which is:

Community Action changes people's lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other.

Sincerely,

Clint Cottam, MPA
Executive Director
Community Action Partnership of Utah

History of Community Action

“Our aim is not only to relieve the symptoms of poverty, but to cure it and, above all, to prevent it.”

- President Lyndon B. Johnson, 1964

In 1964 during his State of the Union Address, President Lyndon B. Johnson declared an “unconditional war on poverty.” The effort centered around different legislation, one being the Economic Opportunity Act of 1964. Community Action Agencies are nonprofit private and public organizations established under the Economic Opportunity Act to fight America’s War on Poverty. Community Action Agencies work to address needs in their communities and provide a range of services such as food and nutrition, job training, education, housing and more. Community Action changes people’s lives, embodies the spirit of hope, improves communities, and makes America a better place to live.

About Community Action Partnership of Utah

Community Action Partnership of Utah (CAP Utah) is the statewide association for Utah's nine Community Action Agencies. The Community Action network envisions an end to poverty in Utah. Our member agencies work toward this vision every day by providing services to low-income families and individuals across the state. Our mission is to lead, strengthen, and support the Community Action network by working with community stakeholders to advocate for vulnerable populations, build thriving communities, and end poverty. We envision a state where residents are self-sufficient and communities are thriving.

About Region 8 Community Action Partnership

The Region 8 Community Action Association is a membership-driven organization representing Community Action Agencies in Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming. The Region 8 Association serves to provide Community Action Agencies a unified voice for the region and a platform for training and technical assistance. The Region 8 Regional Performance Innovation Consortium (RPIC) has partnered with the National CAP, NASCSP, CAPLAW, and OCS to develop a Coordinated Regional Training and Technical Assistance Plan. The developed plan for Region 8 includes numerous training topics including: CSBG Annual Report, Community Needs Assessments, Strategic Planning Risk Assessment, Tri-partite Board Governance, and increasing the number of certified ROMA Implementers, Trainers and Master Trainers in our Region.
